

## LEARNING DELIVERY

### Private Training

Private training is an excellent solution for achieving maximum results. When students in your group have similar goals, we can customize and streamline your private training program, which means more relevant education to meet your learning requirements.

We can deliver any classroom or online course in a private format — at your facility, ours, or online, in any time zone and anywhere in the world.

Private training can be combined with other solutions to strengthen your team and optimize group performance: [e-Learning](#), [learning videos](#), [quick reference cards](#), and [hosted webinars](#).

### Benefits of Our Private Training Include:

- Flexible group sizes with low minimums.
- [Customized training content](#).
- Experienced Certified Instructors.
- Eliminates travel and hotel expenses.
- Flexible schedule and location.
